

Kanta-Häme Central Hospital Hämeenlinna, Department of Radiology

MRI SAFETY QUESTIONNAIRE

Please arrive 15 min prior to the scheduled time.

The examination takes approximately ½ to 1 h, but kindly reserve 2 hours. If you are claustrophobic, please consult the referring *physician* or department. If you need premedication before examination, please notice that you are not able to drive.

Magnetic resonance imaging (MRI) is a safe examination. However, if you have foreign objects in your body due to an operation or a procedure or as a result of an accident, it is a possibility that MRI examination cannot be performed.

Please answer the questions below carefully and circle the correct answer. Please return this form when you come for your examination.

Name _____ **Date of birth** _____

Weight _____ kg **Height** _____ cm
